

Environmental Policy

Responsible operations. Measurable progress.
Continuous environmental improvement.

POLICY INFORMATION

Date of last review: 25 February 2026

Archway Facilities Ltd | archwayfacilities.co.uk

1 Introduction and Scope

Archway Facilities is committed to minimising its environmental impact and operating sustainably.

This policy outlines our commitment to environmental protection and continuous improvement across all our operations, products, and services within the UK and internationally where applicable.

It applies to all employees, contractors, and visitors. We are committed to complying with all relevant environmental legislation, regulations, approved codes of practice, and strive to exceed minimum requirements where possible. We are committed to achieving carbon neutrality in line with PAS 2060.

2 Core Principles and Commitments

Legal Compliance

We will adhere to all applicable UK environmental legislation, including but not limited to:

- Environmental Protection Act 1990
- Environment Act 2021
- Pollution Prevention and Control Act 1999
- Waste (England and Wales) Regulations 2011 (as amended)
- Climate Change Act 2008 and subsequent carbon reduction targets (Net Zero Strategy)
- Relevant sector-specific regulations

Carbon Neutrality (PAS 2060)

We are committed to achieving and maintaining carbon neutrality in accordance with PAS 2060. This involves:

- Measuring our carbon footprint
- Implementing a carbon reduction plan
- Offsetting residual emissions using credible carbon offsets
- Publicly disclosing our carbon neutrality status

Pollution Prevention and Control

- Implementing effective pollution control measures
- Preventing spills and leaks
- Managing noise and light pollution

Resource Efficiency and Waste Management

- Reducing energy and water consumption
- Promoting reuse, recycling, and composting
- Adopting sustainable procurement practices
- Implementing the waste hierarchy (prevention, reuse, recycling, recovery, disposal)

Climate Change Mitigation and Adaptation

- Reducing our greenhouse gas emissions (Scope 1, 2 and 3 where relevant)
- Investing in energy-efficient technologies and renewable energy sources
- Assessing and managing climate-related risks and opportunities

Biodiversity Protection

- Avoiding activities that damage natural habitats
- Supporting local biodiversity initiatives

Sustainable Procurement

We encourage our suppliers to adopt environmentally responsible practices and integrate environmental criteria into our procurement processes.

Stakeholder Engagement

We engage with employees, customers, suppliers, communities, and regulators on environmental issues and actively seek feedback.

Continuous Improvement and Monitoring

- Maintaining an Environmental Management System aligned with ISO 14001 principles
- Setting measurable environmental targets
- Monitoring performance and conducting audits
- Providing environmental training to employees
- Publicly reporting environmental performance

3

Responsibilities and Implementation

Designated senior management is responsible for the overall implementation of this policy. All employees are responsible for adhering to its principles and procedures.

4

Monitoring, Evaluation, and Reporting

Archway Facilities will monitor, evaluate, and report on its environmental performance to ensure the effectiveness of this policy and drive continuous improvement.

4.1 Monitoring of Environmental Performance

We will implement a monitoring system using Key Performance Indicators (KPIs) including:

- Greenhouse gas emissions (Scope 1, 2, and 3) in tonnes of CO₂ equivalent
- Energy consumption
- Water consumption
- Waste generation and recycling rates
- Sustainable procurement spending
- Environmental incidents
- Resource efficiency metrics

Data will be collected using:

- Energy and water meter readings
- Waste tracking systems
- Supplier documentation
- Travel and transport records

4.2 Evaluation and Internal Audits

Management will review the Environmental Management System annually considering:

- Changes in legislation
- Stakeholder feedback
- Audit results
- Opportunities for improvement

Internal audits will be conducted at planned intervals by trained personnel and corrective actions will be implemented where necessary.

4.3 External Verification

- Maintaining or pursuing ISO 14001 certification
- PAS 2060 carbon neutrality verification by an independent third party
- Participation in relevant environmental reporting frameworks

4.4 Reporting and Communication

- Internal reporting of environmental data and audit findings
- Publication of an annual environmental report
- Engagement with stakeholders through meetings, surveys, and online platforms

4.5 Corrective and Preventive Actions

- Root cause analysis for environmental incidents
- Implementation of corrective actions
- Preventive measures to avoid future issues

5

Review and Communication

This policy will be reviewed annually or more frequently if required. It will be communicated to all employees and made publicly available on our website.
